

OLD REPUBLIC SPECIALTY INSURANCE UNDERWRITERS

About Old Republic

A HISTORY OF GROWTH AND STABILITY

Old Republic traces its beginnings to 1923, although several acquired subsidiaries began operations much earlier. The company is one of America's 50 largest shareholder-owned insurance businesses.

Its subsidiaries market, underwrite, and provide risk management services for a wide variety of coverages, predominantly in the general (property and liability), mortgage, guaranty, and title insurance fields. The Company is primarily a commercial lines underwriter servicing the insurance needs of a large number of organizations, including many of America's leading industrial and financial services institutions.

For employees, the Company offers an environment of success in which they can pursue personal goals of professional and economical achievement in the context of Old Republic's business objectives, **including a competitive actuarial program for the completion of exams.**

Company: Old Republic Specialty Insurance Underwriters
Job Category: Actuarial Analyst
Location: Yardley, PA
Work Experience: Minimum 0-3 Years of Experience
Education Level: Bachelor's Degree

Actuarial Analyst

The actuarial analyst will assist in the completion of actuarial work products provided by the team, including insurance & reinsurance pricing, tool & model development, and internal reporting.

Duties and Responsibilities:

- Assist/complete individual account pricing and portfolio pricing analyses.
- Prepare monthly/quarterly management reports as required; work with senior leadership to improve and automate these reports.
- Maintain/improve existing pricing models and assist in the development of new models.
- Provide actuarial support for rate filings and data calls; prepare data and exhibits in response to objections from state insurance departments.
- Assist in the collection of internal and external data for rate monitoring and other projects as needed.

Qualifications:

- Degree in Actuarial Science, Mathematics, Statistics, Economics, or other math-focused or programming field.
- Strong familiarity with Microsoft Excel required; experience with Access, SQL, VBA, Python, or other programming languages is desired.
- Completion of 1-4 actuarial exams is preferred.
- Some prior experience/exposure to the P/C insurance industry is useful, with 1-2 years of P/C actuarial experience being preferred.
- In compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States on a permanent basis and to complete the required employment eligibility verification form upon hire.
